

Transport Volunteers Needed

FastFriends occasionally needs help with transporting dogs. The majority of the trips are for driving dogs to a half-way point when they have been adopted by an affiliated greyhound rescue group, primarily Greyhounds Unlimited in Reno and Greyhound Adoption California in Northern California. For these trips we drive to Bishop, California for the Reno group and the San Luis Obispo area for the Northern California group. The requirements are:

- You must have your own vehicle capable of comfortably transporting dogs long distance
- You must have full insurance on your vehicle
- You must enjoy seeing retired racing dogs be adopted to their forever homes

If you meet the above criteria and would be interested in serving in this way please complete this form and return it to us. This is an occasional need for us. We are looking for a list of people we can contact should the need arise.

Name _____

Phone # _____

Best Time to Call _____

Comments _____

I carry full auto insurance including liability coverage on my vehicle.
